How to get back to previous commit made on Master
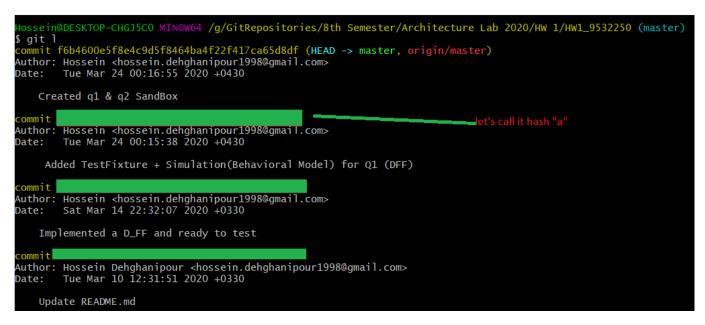

1 – git log

Assume we want to ignore commit on March 24 and go to March 14 instead.

2 – git reset HEAD~n -> n is the number of commits we want to jump. (in this case : $git reset HEAD~1)

```
     Initial commit

Hossein@DESKTOP-CHGJ5C0 MINGW64 /g/GitRepositories/8th Semest
$ git reset HEAD~1
Unstaged changes after reset:

if we want to ignore the changes that have been made :

3 – git reset –-hard
